A GRAND VIRGINIA DISCOVERY. COME FOUR MONTHS SINCE, our excellent townsman, NAPHTALI EZEKIEL, informed us that he had prepared a hair restorer with which he was experimenting upon his own head, whose top was entirely bald. We saw him two days since, and on the place so bald four months since, a fine suits of life. Strict attention will be paid, and persevering crop of hair has sprung up with a vigorous growth. So convinced is Mr. EZEKIEL of the efficacy of his discovery that he has named it "THE INFALLIBLE VIRGINIA HAIR RESTORER." Mr. E. is about going into an extensive manufacture of an article which is destined to prove of anxious interest to our bald pated friends .- From Richm ad Enqui-

rer, December 12th, 1859. This famous article can now be had of the principal Druggists. Those persons who desire a fine head of bair, have only to use the restorer according to printed directions on the bottle. Those who have any doubts of its efficacy, can have them removed in a short time, by using the INFALLI-BLE VIRGINIA HAIR RESTORER, proving that it is all that it is claimed to be.

FEVER AND AGUE, from which mankind suffer over a large part of the globe, is the consequence of a diseased action in the system, induced by the poisonous miasm of vegetable decay. This exhalation is evolved by the action of solar heat on wet soil, and rises with the watery vapor from it. While the sun is below the horizon this vapor lingers near the earth's surface, and the virus is taken with it through the lungs into the blood. There it acts as an irritating poison on the internal viscera and excreting organs of the body. The liver becomes torpid and fails to secrete not only this virus, but also the bile from the blood. Both the virus and the bile accumulate in the circulation, and produce violent constitutional disorder. The spleep, the kidneys, and the stomach sympathize with the liver, and become disordered also. Finally, the instinct of our organism, as if in an attempt to expel the noxious infusion, concentrates the whole blood of the body in the internal excretories to force them to cast it out. The blood leaves the surface, and rushes to the central organs with congestive violence. This is the CHILL. But in this effort it fails .-Then the FEVER follows, in which the blood leaves the central organs and rushes to the surface, as if in another effort to expel the irritating poison through that other great excretory-the skin. In this also it fails, and the system abandons the attempt exhausted, and waits for the recovery of

is not removed. We have labored to find, and have found, an antidote. AYER'S AGUE CURE, 

liates the liver to expel it from the body. so it does cure this afflicting disorder with perfect certainty. And it does more, or rather does what is of more service to those subject to this infection. If taken in season it expels it from the system as it is absorbed, and thus keeps those who use it free from its attacks; keeps the system in health although exposed to the disease. Consequently it not only cures, but protects from the great variety of affections which are induced by this malignant influence, such as Remittent Fever, Chill Fever, Dumb, or Masked Ague, Periodical Headache, or Billious Headache, Billious Fevers, Neuralgia, Rheumatism, Gout, Blingness, Toothace, Earache, Catarrh Asthma Palpitations, Painful Affections of the Spleen, Hysterica, Colic, Paralysis, and Painful Affections of the Stomach and Bowels, all of which, when arising from this cause, will be found to assume more or less the intermittent type. This "Acue CURE" removes the cause of these derangements, and cures

This it accomplishes by stimulating the excretories to execome habited to do this their office of their own accord .-Hence arises what we term acclimatation. Time may accomplish the same end, but often life is not long enough, or is THE next Session of this School will begin on the 3d of at once, and with safety. We have great reasons to believe this is a surer as well as safer remedy for the whole class of diseases which are caused by the miasmatic intection, than Board, including every thing, per month,.... \$ 8 00 to 10 00 any other which has been discovered; and it has still anoth-12 50 er important advantage to the public, which is, that it is cheap as well as good.
